Creating Possibilities

Etac Cloo toilet seat raiser

Cloo is a height adjustable toilet seat raiser which combines flexibility and simplicity. It has a discreet and soft design to blend in with your bathroom interior.

Adjustable angle and height

Cloo can be adjusted in three different heights 6 cm, 10 cm or 14 cm. It can also be set with an anterior tilt which facilitates sitting down and standing up for users with reduced mobility in hip or knee joints.

Functional arm supports

Cloo is available with or without detachable arm supports. The arm supports are foldable but can be fixed in a folded down position if required. Cloo can be used with only one arm support if space around the toilet is limited.

Easy to clean and mount

To aid cleaning Cloo has soft plain surfaces and the seat stays folded in the upright position. The seat can also be easily detached should this be preferred. Mounting is quick and tool-less.

With or without arm supports

Etac Cloo is available with or without arm supports.

Interior tilt

Etac Cloo can be set with an anterior tilt which facilitates sitting down and standing up for users with reduced mobility in hip or knee joints.

Easy to clean

The seat can be easily detached for easy cleaning.

Accessory
